

I am Luana Strapasson, a family photographer from Cascavel, Paraná, Brazil. I want to express my gratitude to the Outstanding Maternity Award.

It was my first international award, and I am very happy! I chose to submit my photograph to the contest because I already knew some award-winning photographers and saw how serious and valued the competition was in our professional circle.

I received a lot of recognition from my clients for being awarded, which is already very valuable to me, not to mention the immediate increase in inquiries for quotes after announcing my award!! It's very clear how enriching it is to be among the winners of such a competitive contest, both personally and professionally.

Lastly, I want to express my gratitude to the contest team and say that I am eagerly looking forward to the next editions!
